## *To the citizens of Creedmoor,*

I continue to hear from some residents with concerns over water quality with the South Granville Water & Sewer Authority (SGWASA) and want you to know that the City of Creedmoor is committed to ensuring you receive high quality water and excellent service in a safe, reliable, efficient, and environmentally responsible manner.

As stated by Creedmoor SGWASA Representative Del Mims, "SGWASA is not only focused on the issues brought before the board but is profoundly committed to doing everything possible to address our citizens' concerns. Clean water is a value proposition of undeniable importance."

Your best source of information is directly through SGWASA. You are encouraged to attend their Board meetings which are held at 6 p.m. on the second Tuesday of each month at the Butner Town Hall -- the next one being **April 12**. Butner Town Hall is located at 415 Central Avenue in Butner. There you can learn more information about the work of the Authority and have your questions answered.

Lastly, I applaud Congressman G.K. Butterfield and our State Senator Floyd McKissick for stepping up to the plate to demonstrate, through action, their commitment to ensuring we have clean water. I am confident that working collaboratively with all levels of government we can address any concerns to give our citizens a peace of mind when it comes to the issue of water quality.

Best regards,

**Darryl D. Moss**  
Mayor
