

DP02

SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2012-2016 American Community Survey 5-Year Estimates

Note: This is a modified view of the original table.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Tell us what you think. Provide feedback to help make American Community Survey data more useful for you.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Granville County, North Carolina		Butner town, North Carolina		Creedmoor city, North Carolina	
	Estimate	Percent	Estimate	Percent	Estimate	Percent
HOUSEHOLDS BY TYPE						
Total households	20,527	20,527	2,618	2,618	1,568	1,568
Family households (families)	14,240	69.4%	1,789	68.3%	1,230	78.4%
With own children of the householder under 18 years	6,266	30.5%	959	36.6%	523	33.4%
Married-couple family	9,898	48.2%	1,039	39.7%	950	60.6%
With own children of the householder under 18 years	3,841	18.7%	525	20.1%	350	22.3%
Male householder, no wife present, family	1,165	5.7%	280	10.7%	28	1.8%
With own children of the householder under 18 years	777	3.8%	190	7.3%	28	1.8%
Female householder, no husband present, family	3,177	15.5%	470	18.0%	252	16.1%
With own children of the householder under 18 years	1,648	8.0%	244	9.3%	145	9.2%
Nonfamily households	6,287	30.6%	829	31.7%	338	21.6%
Householder living alone	5,552	27.0%	685	26.2%	316	20.2%
65 years and over	2,064	10.1%	222	8.5%	143	9.1%
Households with one or more people under 18 years	6,891	33.6%	1,011	38.6%	523	33.4%
Households with one or more people 65 years and over	5,751	28.0%	643	24.6%	482	30.7%

Subject	Granville County, North Carolina		Butner town, North Carolina		Creedmoor city, North Carolina	
	Estimate	Percent	Estimate	Percent	Estimate	Percent
Average household size	2.65	(X)	2.70	(X)	2.75	(X)
Average family size	3.23	(X)	3.32	(X)	3.10	(X)
RELATIONSHIP						
Population in households	54,460	54,460	7,069	7,069	4,310	4,310
Householder	20,527	37.7%	2,618	37.0%	1,568	36.4%
Spouse	9,937	18.2%	1,021	14.4%	966	22.4%
Child	17,356	31.9%	2,565	36.3%	1,410	32.7%
Other relatives	4,415	8.1%	560	7.9%	208	4.8%

COMPUTERS AND INTERNET USE						
Total households	(X)	(X)	(X)	(X)	(X)	(X)
With a computer	(X)	(X)	(X)	(X)	(X)	(X)
With a broadband Internet subscription	(X)	(X)	(X)	(X)	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

Fertility data are not available for certain geographic areas due to problems with data collection. See Errata Note #92 for details.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes when using 2013 data or multi-year data containing data from 2013. For more information, see: Language User Note.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2012-2016 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
