### SELECTION POLICY

While we truly appreciate performer loyalty to our festival, the reality is that there are many more performers interested than we have slots available. As performer interest in the festival has grown substantially, our goal is to include as many different genres as possible, which means limiting to one or two performers per genre depending upon applications received. *The determination has been made to rotate long-time, loyal performers to enable the introduction of new talent to the growing number of attendees and more diversified community.*

Interested performers must complete and submit this *Performer Application* and include performance samples by the submission deadline indicated below. The Band Selection committee will meet to review submissions and will notify the selected performers.

### COMPENSATION

The majority of our performers have traditionally utilized the publicity and attention from the event as a way to promote themselves rather than as a revenue source.

## SET TIME

The average performance set time is **60-90 minutes**. These times are dependent on the current festival's scheduling dynamics. The CMF is a family event and all performances must be family-friendly. There are two stage locations, Southern States Stage and Sanderford Street Stage, which feature a variety of great music throughout the entire day of the festival!

## PRODUCT SALES

Performers are welcome to set-up a small display at the provided tent and table to the side of the stage for promotion and sales.

## ADDITIONAL INFORMATION

Once the performers have been selected, the committee will work to finalize the performance schedule. Shortly thereafter, performers will receive a band package that will include the band schedule and instructions for additional materials to submit (band bio, promotional photos, etc.).

The CMF Committee contracts with professional sound system engineers who will need stage layout and technical information from each performer. Spec sheets will be included in the band package.
